

Planet Protectors Club 2012-2013

**Attention all 4th, 5th, and 6th graders!!!!
Be a Planet Protector!**

As a Planet Protector, your mission is to improve the world around you by making less trash. Planet Protectors also help other people learn to reduce, reuse, and recycle.

We will meet to discuss important issues that affect our planet and participate in fun activities each meeting.

Each participant will also be responsible for helping organize our own recycling program here in the school, and helping to empty classroom recycle bins.

You will be a part of ongoing projects throughout the year that help students learn to reduce, reuse, and recycle.

The more you learn about reducing wastes and saving resources, the better you become at carrying out the Planet Protector goals.

We will meet the 3rd Monday of each month beginning September 17th. Return portion below by September TUESDAY SEPTEMBER 11th arrangements can be made for our first meeting.

We meet after school in Mrs. Ries' room until 3:30. All car riders can meet their ride at the middle door. 3:45 Club return to rooms.

Thanks you,
Mrs. Ries

would like to join Planet Protectors!
